16. (Internal Use Only - LLM) LIAISON Lefty Anderson, on the House Appropriations Surveys and Investigations Staff, called and asked if we could detail on a reimbursable basis an auditor to assist in the work of the S&I Staff for about five to six months. We complied with a similar request several years ago. I said I would look into it and get back to him.

17. (Internal Use Only - LLM) LIAISON Henry Myers, on the staff of the House Interior and Insular Affairs Committee, called in follow-up to an earlier conversation we had and requested that we have for the review of Chairman Morris K. Udall (D., Ariz.) certain of the [] documentation which Myers has previously reviewed and feels should be personally reviewed by the Chairman. During this session in Mr. Udall's office on 22 September at 10:30 a.m., Myers would like us to brief Chairman Udall on the nuclear accident which occurred [] in the late 1950's. This relates to a recent meeting between the NRC and Chairman Udall. It is likely that we may see awakening of interest in this probable melt down of a nuclear core as it relates to current policy issues. [] will follow-up on this.

18. (Internal Use Only - LLM) LIAISON A meeting was held with representatives of the House Appropriations Surveys and Investigations team and Community representatives in an effort to scope the study on Defense and National Intelligence Estimates. The participants were: [] DIA; []

Pete Oleson, OSD; Dr. Sayre Stevens, Dick Lehman and [] NFAC; and myself. No serious problems are foreseen at this early stage and the methodology they intend to follow will be to determine from the end user such as Dr. Perry and Dr. Dinneen, DOD, what intelligence they use in reaching their decision and then to examine that intelligence production and determine its validity on a case example basis. A follow-up tutorial on the National Intelligence Estimates process and organization will be provided the first week of October by Dick Lehman.

19. (Unclassified - RJW) LIAISON Spoke with Larry Hammond, Deputy Assistant Attorney General, Department of Justice, regarding section 349 and H.R. 13500, two "Presidential Papers" bills. Mr. Hammond said he had studied subparagraph 2204(b)(1)(B) of the legislation and on further review found it not to as troublesome as we would interpret it to be. Nonetheless, he welcomed our analysis and indicated that he would work it into his testimony before the Senate Governmental Affairs Committee in such a way that our concerns would be assuaged.
